The Buzz About West Nile Virus PSA (:30)

Have you heard the buzz about West Nile virus? Protect yourself and your family from the mosquito bites that spread the virus. When you go outside, use mosquito repellent containing DEET. When possible, wear long sleeve shirts and pants. And remove standing water around your home where mosquitoes breed. Anyone can become infected, but if you're over 50, you're at higher risk for severe disease or even death from West Nile virus. Remember, the best defense comes from things you can do yourself. Fight the bite; tell mosquitoes to buzz off!
